Chambers Construction Hires New Project Engineer/Estimator

EUGENE, OR — Chambers Construction, a leading Pacific Northwest general contractor based in Eugene, Oregon, is pleased to announce the hiring of Tim Hammond as Project Engineer/Estimator.

Hammond, recently relocated from Fort Collins, CO, adds depth to the company's engineering and estimating teams. His experience working in airport construction helps round out the diversity of projects Chambers Construction is able to build.

"We're glad to have Tim as a member of the Chambers Construction team. His unique background and desire to keep learning in this industry, makes him a great addition," said Dave Bakke, CEO/President.

About Chambers Construction

Chambers Construction has been a leading Pacific Northwest general contractor since 1955, and is based in Eugene, Oregon. Throughout our 66 year history, we have partnered with public and private owners to develop a diverse portfolio of renovation, rehabilitation, and new construction projects that include multi-family residential, athletic, educational, healthcare, commercial, office, industrial, retirement living, mixed-use and institutional facilities. We are committed to an integrated approach when working with owners and design partners, implementing green building practices and materials, performing a large percentage of our work with local labor, and supporting the industry through our apprenticeship program.
